

<b>Site Name</b>	<b>Date</b>
------------------	-------------

<p><b>Physical Location</b> Describe building type, floors, access, grounds, parking, remote areas. Include approximate brisk walking times to key points. Attach floor plan if available.</p>	
<p><b>SCA High-Risk Areas</b> Examples: exercise/fitness areas, high occupancy/gathering areas, swimming pools, high voltage equipment, heavy machinery.</p>	
<p><b>Response Barriers</b> Examples: stairs, elevators, locked/secure areas, hazardous areas, crowds/congestion, roadways/driveways.</p>	
<p><b>Population</b> People regularly present: staff, visitors, etc. Approximate headcount. Adults? Children (&lt;8yrs)? What hours of day? Shift workers?</p>	
<p><b>Responders</b> Who will respond? How many? How will they be notified? Type of training. Times available to respond?</p>	
<p><b>AED Placement</b> Location(s), quantity, time/distance to reach, accessories, oxygen, mounted/mobile, ambient temperature, phone nearby</p>	
<p><b>Other Considerations</b></p>	

<b>Organization</b>	<b>Completed By</b>
